

Digital infrastructure for markets that already work.

Cabanga Platforms builds registers and marketplaces for the southern African corridor, and puts a person behind each one to make the introduction. Eight platforms are open, each on its own domain, across Botswana, South Africa, Zimbabwe and Zambia.

Cabanga Platforms is the trading name of Cabanga Africa (Pty) Ltd, registered in Botswana. It is a separate company from Cabanga Africa Group (Pty) Ltd, which publishes twelve regional magazine editions across twenty-four countries.

HOW A POST BECOMES AN INTRODUCTION

01	02	03	04
You post	You confirm it is you	A person reads it	The introduction is made
A short form. No account, no password, about a minute. Free on every board.	A six-digit code reaches your inbox. Nothing is recorded until you enter it.	A coordinator, not a ranking model, reads your post against the other side.	On WhatsApp, within one business day, once both sides genuinely fit.
